Site

The various mature trees, as listed above, described, seen in the photographs, and marked on the plan are situated in the rear garden of the property. They are publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The trees are protected by a Tree Preservation Order (TPO)

Proposal

Tree works proposed.

Works to trees protected by a TPO

T1: Ash (15m): Crown thin by 30% to keep tree at a size suitable for its location and as part of regular maintenance

T2: Oak (10m): Crown reduce by 2m to keep tree at a size suitable for its location and as part of regular maintenance

(Works to T3 Pear, T4 Pear, T5 Pear and G1 group of Holly will be considered separately under Section 211 Notice reference HGY/2026/2231, as these trees are not protected by a TPO but are located within a Conservation Area)

Issues

I hold no objections to the reasonable proposed pruning tree works.

The specification is within standard good arboricultural practice and husbandry.

Both species generally respond well to such reductions and management regimes.

Recommendation

No Objection
