Site

The trees as listed and described above, marked on the plan, and seen in the photographs, are situated in the rear and front garden of the property. They are not publicly visible to the rear.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Crouch End Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

(1) Malus domestica (apple tree) very old and in poor condition. To be felled & totally removed from the rear garden.

(2) Sambucas nigra (common Elder tree) to be felled & totally removed from the front garden. The tree is very overgrown and in bad shape

Issues

I hold no objections to the proposed removals as the trees are low grade and not worthy of further protection.

Recommendation

No Objection
