Site

The various trees as listed above, marked on the plan, and seen in the photographs are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Alexandra Park Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1-Laurel tree- cut to ground level.

T2-Sycamore tree - reduce crown by approximately 2m, remove Ivy from tree.

T3-Holm Oak tree- reduce crown by approximately 3m, lift crown to 2m from ground level.

T4-Neighbours Bay tree- reduce overhanging branches back to 1m from fence, remove suckers on garden side

Issues

I hold no objections to the reasonable proposed tree works.

T1 is low grade not worthy of any further protection.

When practicing one's common law right (T4), it is prudent and courteous to inform the adjacent landowner.

Recommendation

No Objection
