Site

The mature trees, as listed above, marked on the sketch plan, and seen in the photographs, are situated in the rear garden of the property. They are publicly visible from Western Road.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Fortis Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1 - oak tree (15m) - reduce crown to previous pruning points, approximately 2-3m reduction

T2 - horse chestnut tree (14m) - reduce crown to previous pruning points, approximately 1-2m reduction

Issues

I hold no objections to the repeat reasonable proposed pruning works to prune back to the most recent previous.

The specification is within standard good arboricultural practice and husbandry.

The species generally respond well to such reductions and management regimes.

Recommendation

No Objection
