Site

The mature Willow tree, as marked on the plan, and seen in the photographs, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Crouch End Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Willow tree within conservation area (Crouch end CSV1) - Crown reduction by up to 4 meters - Previous points

Issues

I hold no objections to the repeat reasonable proposed pruning works to prune back to the most recent previous points.

The specification is within standard good arboricultural practice, and husbandry.

The species generally responds well from such reductions.

Recommendation

No Objection
