Site

The various trees as listed above, and marked on the plan, are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1) Lime - Reduce crown by 30% back to previous growth points 3m of height and 2.5m of width.

T2) Magnolia - Reduce crown by 30% back to previous growth points 3m of height and 2.5m of width

T3) Apple - Reduce crown by 30% back to previous growth points 3m of height and 2.5m of width

Issues

I hold no objections to the reasonable proposed pruning works to reduce crowns back to the most recent previous.

The specification is within standard good arboricultural practice and husbandry.

The species generally respond well to such reductions and management regimes.

Recommendation

No Objection
