RECOMMENDATION:	No Objection	
Application date	22/09/2026	
Tree Inspector	DM	Date: 12 th October 2026

Site

The trees T1 & T2 as listed above, and marked on the sketch plan, are situated in the front and rear garden of the property. They are not publicly visible to the rear.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

The bay tree in the front garden (T1) needs approx 1.5-2 m reduction in height and 0.5 m reduction in lateral growth to maintain healthy growth and prevent obstruction of pavement to members of the public

The apple tree in the back garden (tT2) needs approx 1.5 m reduction in height and 0.5 m reduction in lateral growth to maintain healthy growth

Issues

I hold no objections to the reasonable and sensitive pruning works.

The specification is within standard good arboricultural practice and husbandry.

The species generally respond well to such reductions and management reductions.

Recommendation

No Objection
