Product details

Product information

Instead of locking your bikes in your garage or house, keep them in a bike shed. If you own more than one bike, keeping them all in one shed can save a lot of space in your interior while protecting them from the weather. What's more, our sheds have lockable doors for safe storage of your expensive bikes. Its strong steel construction also makes it a durable choice for those cycling enthusiasts.

Features and benefits

This bike storage was used of weather-resistant steel construction.The sloping top prevents snow and water build up.It can keeps trash cans/bikes organized.

- [REINFORCED STRUCTURE] The storage shed is constructed with a steel frame and a metal reinforcement layer has been added to the interior of the product to ensure stability regardless of wind or rain.
- [MULTI-FUNCTIONAL] The door of this shed can be locked to ensure the safety of the goods(Without Lock); hydraulic pneumatic lever design ensures that the shed cover opens and closes slowly to improve the safety of the product.
- [QUALITY MATERIAL] This product is an excellent choice for outdoor storage. It is made of corrosion-resistant galvanized steel and can be used in outdoor places such as patio, garden and lawn.
- [DIMENSIONS] This outdoor storage shed measures 210 cm wide x 105 cm deep x 130 cm high, making it perfect for storing bikes, tools, or holding two large trash cans without worrying about a lack of interior storage space.
- [SUITABLE FOR OUTDOOR USE] This bike storage shed is highly wind and water resistant. The sloped roof design also helps with drainage, preventing standing water and rain from entering the shed.
- [EASY INSTALLATION] Detailed instructions are included for easy installation, please wear gloves when installing to prevent injury.
- Dimensions: 210cm W x 105cm D x 130cm H

Specifications
