Site

The trees as listed above, seen in the photograph and marked on the plan, are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Bounds Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1 - sycamore tree (10m) - pollard tree at approximately 2.5m from ground level.

T2 - ash tree (9m) - reduce crown by approximately 2m and lift away from roofs

Issues

I hold no objections to the proposed pruning works.

The Sycamore tree is too close to the house.

The specification for the Ash tree is within standard good arboricultural practice and husbandry. The species normally responds well to such reductions and management regimes.

Recommendation

No Objection
