Site

The Eucalyptus tree, as marked on the plan, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

1) Eucalyptus in rear garden: Reduce overall crown by up to 3 metres back to previous reduction framework

Issues

I hold no objections to the proposed reasonable pruning work.

The specification is within standard good arboricultural practice and husbandry.

The species generally responds well to such reductions and management regimes.

Recommendation

No Objection
