Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.

a) Protected and priority species

◯ Yes, on the development site
◯ Yes, on land adjacent to or near the proposed development
⊘ No

b) Designated sites, important habitats or other biodiversity features

◯ Yes, on the development site
◯ Yes, on land adjacent to or near the proposed development
⊘ No

c) Features of geological conservation importance

◯ Yes, on the development site
◯ Yes, on land adjacent to or near the proposed development
⊘ No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?

◯ Yes
⊘ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in The Environment Act 2021: "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:
Development site area of 0.2 hectares or below

Are there any priority habitats on or within 500m of your site?:
Yes

Can you provide evidence that no priority habitats will be impacted by the development?:
Yes

Please justify the reason why biodiversity net gain does not apply:
The property is nowhere near the priority habitat. The closest priority habitat is dome deciduous woodland in down lane park, which this development will not impact. It is largely (80%+) a brownfield site - it is a concrete floored garage and very disturbed small garden with no plants in it to the rear. There is not evidence of any animal activity living on the site. of the 11sqm of garden that will be developed, 6sqm already has a concrete slab.

Please read the help text for further information why developments may be exempt or not in scope.

Open and Protected Space

Open Space

Will the proposed development result in the loss, gain or change of use of any open space?

◯ Yes
⊘ No

Protected Space

Will the proposed development result in the loss, gain or change of use of a site protected with a nature designation?

◯ Yes
⊘ No

Foul Sewage

Please state how foul sewage is to be disposed of:

☑ Mains sewer
☐ Septic tank
☐ Package treatment plant
☐ Cess pit
☐ Other
☐ Unknown

Are you proposing to connect to the existing drainage system?

⊘ Yes
◯ No
◯ Unknown

If Yes, please include the details of the existing system on the application drawings and state the plan(s)/drawing(s) references

Will connect to the existing system. There is a new manhole at the rear of the #34, which was added in 2025 in agreement with Thames Water. This is 1m away from the rear of the existing property (main house) and 1m from the proposed boundary between #34 and #34a. It is therefore ideally situated to connect a soil pipe from the new proposed dwelling. Detailed drawings will be submitted for building regulations approval.

Community Infrastructure Levy

Your development may be liable for a charge under the Community Infrastructure Levy if it involves new or additional gross internal area for residential and non-residential buildings, including extensions or a new dwelling. If your scheme is liable, this charge is payable after development begins.

Information on the CIL charges can be found on the local authority website. In London both Mayoral and local borough CIL charges may be applicable.

Your answers below, and in the application, will enable the local authority to establish if your development is liable for a charge and to calculate it accurately.

Further information on CIL, and what to do if you are liable can be found on the Planning Portal.

It is an offence for a person to knowingly or recklessly supply information which is false or misleading in a material respect to a collecting or charging authority in response to a requirement under the Community Infrastructure Levy Regulations (2010) as amended (regulation 110, SI 2010/948). A person guilty of an offence under this regulation may face unlimited fines, two years imprisonment, or both.

Liability for CIL

Does the application include new build development (including extensions and replacement) of 100 square metres gross internal area or above?

◯ Yes
⊘ No

Note: Answer No if either:

- the new or additional internal area only relates to a building into which people do not normally go or only go into intermittently for the purposes of inspecting or maintaining fixed plant or machinery; or
- the new or additional internal area solely relates to an internal/mezzanine floor and no other works or change of use are proposed.

Does the application include creation of one or more new dwellings (including residential annexes) either through new build or conversion (except the conversion of a single dwelling house into two or more separate dwellings with no additional gross internal area created)?

⊘ Yes
◯ No

If liable for CIL, a Commencement (of development) Notice (CIL Form 6) must also be received by the collecting authority prior to the commencement of the development. Otherwise a surcharge equal to 20% of the notional CIL chargeable amount or £2,500, whichever is the lower amount, will be incurred.

All additional CIL forms can be downloaded from the Planning Portal website.

Pre-application Advice

Has assistance or prior advice been sought from the local authority about this application?

◯ Yes
⊘ No

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:
(a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

◯ Yes
⊘ No
