Site

The Willow tree T1, as seen in the photograph, and marked on the sketch plan, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Alexandra Park Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1- Willow tree - reduce back to previous pruning points (approximately 2m reduction) , remove branch touching neighbours shed

Issues

I hold no objections to the reasonable repeat pruning back to the most recent previous points.

The specification is within standard good arboricultural practice and husbandry.

The species generally responds well to such reductions and management regimes.

Recommendation

No Objection
