Hi John,

I have checked in with the build team on this.

See image of the cladding fixings. There will be no plastic washers present. All fixings are stainless steel as shown and will be at approx. (*subject to design*) at 600-750mm ctrs.

We don’t tend to colour match fixings as torquing the bolts tends to flake the paint.

Hope this answers your question.

Kind Regards,

William Mackey
Development Manager
