Subject: 105-107 Hornsey Lane (Princess Court) 5 day notice

Back to Princess Court Hornsey Lane.

First and foremost we will be looking to do some climbing inspections on the trees there and removing only dead/wood and massaria infected branches (no live growth) of the 2 Plane trees and at the rear x 1 Plane x 1 Lime x 1 Robinia but also need to do some remedial works to 2 other trees which are alongside princess court on Stanhope Road and just want to confirm that the trees we need to do works to aren't part of the TPO there.

So basically

Front boundary on Hornsey Lane X 2 London plane (TPO) we will climb and inspect and only remove deadwood and massaria infected branches (photos will be taken)

Front left corner on Stanhope x 1 Copper Beech (non TPO Non Con area) reduce height by up to 4 meters and prune away from building

Side of building (mid way) X 1 Lime (Non TPO Non Con area) Reduce height by up to 4 meters and prune away from building

Rear garden x 1 Plane (TPO) climb to inspect and remove only daed wood and massaria infected branches

Rear garden Stanhope Road x 1 Lime x 1 Robinia (non TPO Non Con area) to climb to inspect and remove only dead wood.

Based on the list and maps you previously kindly sent Im sure that the only trees subject to TPO are the 3 Plane trees of which I'm giving 5 days notice if that's ok.

Ill copy in Daniel too for him to view if needed.

I do hope this makes sense

Best

Kevin
