Site

The Oak *Quercus* spp. tree T1, as marked on the plan and seen in the photograph, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The tree is protected by a Tree Preservation Order (TPO)

Proposal

Tree works proposed.

Works to tree protected by a TPO.

T1 - Oak tree (10m) - reduce crown to previous pruning points, approximately 2m reduction.

(The remaining tree works detailed on the application form are being considered under Section 211 Notice ref. HGY/2023/2827, as the other listed trees are within a Conservation Area but not protected by TPOs)

Issues

I hold no objection to the repeat, reasonable, sensitive, sympathetic pruning works.

The specification is within good arboricultural practice and husbandry.

Young Oaks generally respond well to such pruning regimes. The reduction will take the crown back to the most recent previous pruning cuts.

Recommendation

No Objection
