Site

The Hornbeam tree T1, as marked on the plan, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Muswell Hill Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Hornbeam (T1) - Reduce crown back to previous cuts (1.5m reduction). To let more light into the garden.

Issues

I hold no objections to the proposed reasonable, repeat, sensitive, sympathetic pruning works to prune back to the most recent previous cuts.

The specification is within good arboricultural practice and husbandry.

Hornbeams generally respond well to such reduction works.

Recommendation

No Objection
