Site

The mature Sycamore tree T1, as marked on the plan and seen in the photograph, is situated in the rear garden of the property. It is publicly visible from Albert Road N4.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Stroud Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Reduce the height of the sycamore (T1) by 5m to restrict root growth. We had permission to fell the tree recently but permission has just lapsed.

Issues

Looking at the case history, I hold no objections to the proposed pruning works.

Sycamores generally respond to reduction works.

A second lower crown can be seen within the canopy structure.

Recommendation

No Objection
