

Officer Report

Application Number:	HGY/2023/2119
Application Type:	Full planning permission
Address:	6 Stapleton Hall Road, Hornsey, London, N4 3QD
Proposal:	Replace single glazed, timber sash windows with double glazed, timber sash windows to match existing style, frame colour and fenestration. Replace front entrance timber part glazed three panel door to match existing style.
Case Officer:	Zara Seelig
Valid Date:	11/08/2023
Applicant:	Ms Regina Szmajda
Agent:	Mr Matt Peters

RECOMMENDATION

Approve with Conditions

1. PROPOSED DEVELOPMENT AND LOCATION DETAILS

Proposed development

The proposal is to replace single glazed, timber sash windows with double glazed, timber sash windows to match existing style, frame colour and fenestration. The proposal is to replace front entrance timber part glazed three panel door to match existing style.

Site and Surroundings

The application site is a three storey mid terrace building consisting of two self contained flats located on the Southern side of Pembury Road. The site is located within the Stroud Green Conservation Area, it is not a listed building.

Relevant Planning and Enforcement history

The most recent planning history in relation to the site is as follows.

HGY/2023/0496 - – Exchange of existing single-glazed timber windows and double-glazed uPVC windows for new fit for purpose double-glazed timber and uPVC window units.– Granted permission (with conditions)

2. CONSULTATION RESPONSE / LOCAL REPRESENTATIONS

LBH Conservation team: no response received

No representations received from neighbours, local groups, etc in response to notification and publicity of the application.

3. MATERIAL PLANNING CONSIDERATIONS

Design and appearance

DPD Policy DM12 'Housing Design and Quality' states that extensions or alterations to residential buildings, including roof extensions will be required to be of a high, site specific, and sensitive design quality, and respect and/ or complement the form, setting, period, architectural characteristics, detailing of the original building, including external features such as chimneys, and porches. High quality matching or complementary materials should be used appropriately and sensitively in relation to the context. DPD Policy DM1 'Delivering High Quality Design' requires development proposals to relate positively to their locality, while Local Plan (2017) Policy SP11 requires the highest standard of design that respects local context and character and historic significance, which is equally supported by London Plan (2021) Policy D6.

London Plan Policy HC1 seeks to ensure that development proposals affecting heritage assets and their settings, should conserve their significance. This policy applies to designated and non-designated heritage assets. Local Plan Policy SP12 and DPD Policy DM9 set out the Council's approach to the management, conservation and enhancement of the Borough's historic environment.

DPD Policy DM9 states that proposals affecting a designated or non-designated heritage asset will be assessed against the significance of the asset and its setting, and the impact of the proposals on that significance; setting out a range of issues which will be taken into account. In relation to extensions or alterations to residential buildings, including roof extensions, Policy DM9 requires proposals to be of a high, site specific, and sensitive design quality, which respect and/ or complement the form, setting, period, architectural characteristics, detailing of the original buildings, including external features such as chimneys, and porches. The policy also requires the use of high-quality matching or complementary materials, in order to be sensitive to context.

Stroud Green Conservation Area is a large conservation area comprising a number of predominantly residential streets. There is a mixture of architectural styles and details, including roof shapes, but overall consistency in terms of the appearance and scale of buildings. This consistency informs the significance of the conservation area and forms a key part of its character and appearance. Stroud Green conservation area has no current adopted appraisal and equally there is no Article 4 Direction covering the conservation area, as such meaning small scale alterations (replacement windows, doors, rooflights) are currently not controlled in relation to single family dwellings.

The timber replacement windows will follow this same pane arrangement and frame colour to respect the authentic look and quality of the original windows important to the character of the road. Specifically, the windows will have a sliding sash design to reflect the design of the current windows. It is accepted that the change to double glazing will mean the box frame will be a little deeper (in plan form) than the current, which would be identifiable when examining the windows at close quarters from inside the properties, however in views externally this change would be hardly if at all, detectable.

The replacement front entrance door with part-glazed part panel timber door will match the existing door style to this property, common to properties within this terrace.

The replacement windows here will deliver benefits in terms of greater thermal efficiency and sound insulation which are considerations that also need to be taken into account; in specific mindful of Haringey's Climate Change Action Plan (HCCAP) and the objective to be net zero carbon by 2041.

In all significant respects the replacement windows and door will match the existing and will not have any material effect on the external appearance of the property, leaving the character and appearance of the conservation area preserved.

The proposed development is in general accordance with Policies DM1, DM9, and DM12 of the Development Management, Development Plan Document 2017, and policies SP11 and SP12 of Haringey's Local Plan Strategic Policies 2017. The proposed development also accords with the relevant policies of the London Plan 2021 and the NPPF.

All other relevant policies and considerations, including equalities, have been taken into account. Planning permission should be granted for the reasons set out above. The details of the decision are set out in the RECOMMENDATION

RECOMMENDATION - GRANT PERMISSION subject to conditions:

Conditions:

- 1 The development to which this permission relates must be begun no later than three years from the date of this decision notice, failing which the permission shall be of no effect.

Reason: This condition is imposed by virtue of Section 91 of the Town and Country Planning Act 1990 and to prevent the accumulation of unimplemented planning permissions.

- 2 The development hereby permitted shall be carried out in complete accordance with the approved plans and drawings listed in this decision notice, other than where those details are altered pursuant to the conditions of this planning permission.

Reason: For the avoidance of doubt and in the interests of proper planning.

Informatives:

INFORMATIVE: Land Ownership

The applicant is advised that this planning permission does not convey the right to enter onto or build on land not within his ownership.

INFORMATIVE: Hours of Construction Work

The applicant is advised that under the Control of Pollution Act 1974, construction work which will be audible at the site boundary will be restricted to the following hours:-

8.00am - 6.00pm Monday to Friday

8.00am - 1.00pm Saturday

and not at all on Sundays and Bank Holidays.
