

The site plan shows the 201 GS building, a large rectangular structure with a grid pattern. To the left of the building is a parking lot with several parking spaces. To the right of the building is a landscaped area with trees and a walkway. The building is labeled '201 GS' in a circle. The plan also shows a road on the right side and a small structure near the building.

- 1 - New walls of newly widened and lowered the existing lightwell to receive painted render finish
- 2 - New floor of widened and lowered lightwell to be finished in heritage tiles
- 3 - New openable timber windows installed with a lowered cill level
- 4 - New PPC Aluminium pivot doors to enlarged opening with red brick concealed lintel soldier course above externally
- 5 - New like for like double glazed timber sash windows
- 6 - New PPC steel balustrade enclosing the expanded and deepened front light well on retaining wall to match railing style of No. 32 Avenue Road.

A horizontal scale bar with vertical tick marks. The bar is labeled '0' at the left end, '1m' at the midpoint, and '2m' at the right end. Below the bar, the text '1:100' is printed.
