## **Site**

The various trees as listed above, marked on the plan, and seen in the photographs are situated in the front, side, and rear communal garden of the property. They are not publicly visible to the rear.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

## **Proposal**

T7 - Approx. H19 S12 100DBH Sycamore

Reduce lowest eastern limb by approx. 3m and deadwood

T8 - Approx. H5 S4 40DBH Malus

Crown reduce height and sides by approx. 0.5m (regrowth)

T9 - Approx. H10 S7 60DBH Holly

Crown reduce height by 4m

Tidy up sides.

### **Issues**

I hold no objection to the proposed reasonable pruning works that have arisen from a tree condition survey.

Some of the pruning is to reduce back to most recent, along with deadwooding, reducing an extended branch and crown reducing species that generally reduce well.

The specification is within standard good arboricultural practice and husbandry.

### **Recommendation**

**No Objection**
