

PROTECTED TREE REPORT (TREE WORKS)

Haringey Council, L4,
Alexandra House, Station
Road N22 7TY

Application number	HGY/2023/3050
Application type	Conservation Area Notification
Site Address:	The Gables, Fortis Green, Hornsey, London, N10 3EA
Proposal	T1: Crab Apple (7m): Re-pollard to previous points removing 1.5-2m of regrowth to keep tree at a suitable for location as encroaching building and footpath T2: Ash (8m): Re-pollard to previous points removing 1.5-2m of regrowth to keep tree at a suitable for location as encroaching building and footpath T3: Lime (8m): Re-pollard to previous points removing 1.5-2m of regrowth to keep tree at a suitable for location as encroaching building and footpath T5: Rowan (7m): Re-pollard to previous points removing 1.5-2m of regrowth to keep tree at a suitable for location as encroaching building and footpath T6: Cherry (9m): Crown reduce by 1m to keep tree at a suitable for location as encroaching building and footpath T7: Lime (7m): Re-pollard to previous points removing 1.5-2m of regrowth to keep tree at a suitable for location as encroaching building and footpath T8: Ash (7m): Re-pollard to previous points removing 1.5-2m of regrowth to keep tree at a suitable for location as encroaching building and footpath T9: Ash (8m): Re-pollard to previous points removing 1.5-2m of regrowth to keep tree at a suitable for location as encroaching building and footpath T10: London Plane (10m): Re-pollard to previous points removing 1.5-2m of regrowth to keep tree at a suitable for location as encroaching building and footpath T11: Laburnum (7m): Reduce crown by 2m over footpath to keep tree at a size suitable for location as encroaching footpath to the north.

RECOMMENDATION:	No Objection	
Application date	13/11/2023	
Tree Inspector	DM	Date: 4 th November 2023

Site

The various trees, as listed above and marked on the plan, are situated in the front communal garden of the property. They are publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Fortis Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1: Crab Apple (7m): Re-pollard to previous points removing 1.5-2m of regrowth to keep tree at a suitable for location as encroaching building and footpath

T2: Ash (8m): Re-pollard to previous points removing 1.5-2m of regrowth to keep tree at a suitable for location as encroaching building and footpath

T3: Lime (8m): Re-pollard to previous points removing 1.5-2m of regrowth to keep tree at a suitable for location as encroaching building and footpath

T5: Rowan (7m): Re-pollard to previous points removing 1.5-2m of regrowth to keep tree at a suitable for location as encroaching building and footpath

T6: Cherry (9m): Crown reduce by 1m to keep tree at a suitable for location as encroaching building and footpath

T7: Lime (7m): Re-pollard to previous points removing 1.5-2m of regrowth to keep tree at a suitable for location as encroaching building and footpath

T8: Ash (7m): Re-pollard to previous points removing 1.5-2m of regrowth to keep tree at a suitable for location as encroaching building and footpath

T9: Ash (8m): Re-pollard to previous points removing 1.5-2m of regrowth to keep tree at a suitable for location as encroaching building and footpath

T10: London Plane (10m): Re-pollard to previous points removing 1.5-2m of regrowth to keep tree at a suitable for location as encroaching building and footpath

T11: Laburnum (7m): Reduce crown by 2m over footpath to keep tree at a size suitable for location as encroaching footpath to the north

Issues

I hold no objection to the reasonable mainly repeat pruning works.

The specification is within good arboricultural practice and husbandry.

Recommendation

No Objection
