Site

The various trees, as listed above, seen in the photographs, and marked on the plan are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Alexandra Park Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1- Ash tree- (20m)- crown reduction back to most recent pruning points (approximately 4m reduction). Clear main trunk of suckers and dead Ivy. Reduce horizontal branch over neighbours by an additional 2m.

T2- Willow tree-(15m)- crown reduction back to most recent pruning points (approximately 5m reduction). Clear climbing plant from tree.

T3- Sycamore tree in neighbours garden (8m)- remove 4 overhanging low branches and remove fallen branches.

Issues

I hold no objections to the proposed reasonable works.

T1 & T2 are repeat back to the most previous recent and T3 Sycamore is a low grade tree with minimum works being carried out.

Ash and Willow generally crown reduce quite well.

Recommendation

No Objection
