Site

The Lime trees G1 are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Alexandra Park Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

G1: 3 x Lime (9m): Re-pollard to previous points removing 3m of regrowth as part of regular maintenance

Issues

I hold no objections to the reasonable repeat proposed pruning works to prune back to the most recent previous.

Limes trees respond well to such pollarding regimes.

The specification is within good arboricultural practice and husbandry.

Recommendation

No Objection
