Site

The Lime tree T1, as seen in the photograph and marked on the plan, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Fortis Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1 lime fell and treat stump.

Issues

We have been in dialogue with the applicant/ client and they have agreed rather than fell the tree, they now intend to crown reduce the Lime tree's height from 11m to 7m.

This is acceptable as Lime trees generally reduce well.

Recommendation

No Objection

Amendment: Overall crown reduction from approximately 11m to 7m
