Conditions: (7)

- 1 The development to which this permission relates must be begun no later than three years from the date of this decision notice, failing which the permission shall be of no effect.

Reason: This condition is imposed by virtue of Section 91 of the Town and Country Planning Act 1990 and to prevent the accumulation of unimplemented planning permissions.

- 2 The development hereby permitted shall be carried out in complete accordance with the approved plans and drawings listed in this decision notice, other than where those details are altered pursuant to the conditions of this planning permission.

Reason: For the avoidance of doubt and in the interests of proper planning.

- 3 The external materials to be used for the proposed development shall match precisely in colour, size, shape and texture those of the existing building. The render of the flank wall gable ends and frontage of the second floor shall replicate the texture and colour of the existing rendered frontage and shall be undertaken in conjunction with a re-rendering of the existing frontage to provide a seamless appearance between the old and new parts of the building. Detailing of the proposed bay window shall match exactly that of the existing detailing at first floor and roof tiles shall reuse or match precisely the existing roof tiles. The brick detailing of the existing first floor shall be replicated as per the elevation drawing.

Reason: In order to ensure a satisfactory appearance for the proposed development, to safeguard the visual amenity of neighbouring properties and the appearance of the locality consistent Policy D3 of the London Plan 2021, Policy SP11 of the Haringey Local Plan 2017 and Policy DM1 of The Development Management DPD 2017 and South Tottenham Residential Extensions SPD (2013).

- 4 Notwithstanding the provisions of the Town & Country Planning General Permitted Development Order 20015 or any Order revoking or re-enacting that Order, no changes to the front or side elevations of the dwelling, including the rendered colour, texture and appearance, and window detailing shall be carried out without the grant of planning permission having first been obtained from the Local Planning Authority.

Reason: To safeguard the visual amenities of the area and to prevent an out of keeping development of the frontage by controlling proposed extensions

and alterations of the frontage and sides of this dwelling consistent with Policy D3 of the London Plan 2021, Policy SP11 of the Haringey Local Plan 2017, Policy DM1 of The Development Management DPD 2017 and the South Tottenham Residential Extensions SPD 2017.

- 5 Before any work is undertaken in pursuance of this permission to add an additional two floors and additional pressure on the original foundations of the dwelling, steps shall be taken by a qualified professional to demonstrate that the additional loading on the ground by the foundations does not exceed the accepted maximum bearing capacity of the ground and works shall be carried out in accordance with the approved structural engineers' drawings.

Reason: In order to safeguard the structural integrity of the building consistent with Policy SP11 of the Haringey Local Plan 2017 Policy DM1 of The Development Management DPD 2017 and the South Tottenham Residential Extensions SPD 2017.

- 6 No development shall commence until a Chartered Civil Engineer (MICE) or Chartered Structural Engineer (MI Struct.E) has been appointed, and such appointment confirmed in writing to the local planning authority, to supervise the construction works throughout their duration. In the event that the appointed engineer ceases to perform that role for whatever reason before the construction works are completed, those works will cease until a replacement chartered engineer of the afore-described qualification has been appointed, and such appointment confirmed in writing to the local planning authority, to supervise their completion. At no time shall any construction work take place unless an engineer is at that time currently appointed and their appointment has been notified to the local planning authority in accordance with this condition.

Reason: To ensure that the proposed development would have no undue impact on the structural integrity of adjoining and neighbouring buildings, in accordance with Policy DM18 of the Haringey Development Management DPD 2017.

- 7 Notwithstanding the submitted details and prior to commencement of the development hereby approved a final Construction Management Plan shall be submitted to and approved in writing by the Local Planning Authority, detailing the programme of works and providing details in respect of the construction traffic movements, material and plant storage areas, details of

necessary suspended car parking spaces, details of conveyor and gantry to transfer material over the footway. The approved details thereafter shall be implemented throughout the project period.

Reasons: To ensure there are no adverse impacts on the free flow of traffic on local roads and to safeguard the amenities of the area consistent with Policies T4, T7 and D14 of the London Plan 2021, Policies SP0 of the Haringey Local Plan 2017 and with Policy DM1 of The Development Management DPD 2017.

Informatives:

INFORMATIVE: Hours of Construction Work

The applicant is advised that under the Control of Pollution Act 1974, construction work which will be audible at the site boundary will be restricted to the following hours:-
8.00am - 6.00pm Monday to Friday
8.00am - 1.00pm Saturday
and not at all on Sundays and Bank Holidays.

INFORMATIVE: Party Wall Act

The applicant's attention is drawn to the Party Wall Act 1996 which sets out requirements for notice to be given to relevant adjoining owners of intended works on a shared wall, on a boundary or if excavations are to be carried out near a neighbouring building.

INFORMATIVE: Thames Water will aim to provide customers with a minimum pressure of 10m head (approx 1 bar) and a flow rate of 9 litres/minute at the point where it leaves Thames Waters pipes. The developer should take account of this minimum pressure in the design of the proposed development.
