Site

The Sycamore trees T1 & T2, as marked on the plan and seen in the photograph, are situated in the rear garden of the property 4 Stanhope Gardens bordering 16 Claremont Road N6. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1, T2 - Sycamores - Pollard/reduce, to points of previous pollarding/reduction (approx. 4m branch removal)

These trees are located in the land behind the garden of 16 Claremont Road. This land is part of the garden of 4 Stanhope Gardens.

Issues

I hold no objections to the proposed pruning works.

It is clear from the photograph that the trees have been reduced before.

Sycamores generally respond well and quickly to reductions and this reduction is minimal removal of regrowth.

Recommendation

No Objection
