Site

The various trees, as listed above, marked on the plan, and seen in the photographs are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Stroud Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1-Ivy clad Plum tree (7m)- on left- pollard to fence height.

T2- twin stemmed Plum tree (8m)- reduce crown by approximately 2m , reduce trunk on left to approximately 1.5m above shed.

T3- Yew tree (8M) - reduce crown back to previous pruning points, approximately 2m reduction.

Issues

I hold no objections to the reasonable proposed pruning works.

T1 is low grade, T2 Cherry Plums generally respond well to such works, and T3 is a repeat minor reduction back to previous.

Recommendation

No Objection
