

Approved Planning Drawing
Ground Floor Plan
Drawing PL-100
Date: 17.05.23

(1) Existing Fireplace, hearth & shelves.

1) The inbuilt shelves either side of the fireplace have been carefully removed. The Fireplace surround and hearth have all been protected during the works and are still in place.

(1) Modern timber boarding cladding to the internal stud walls.

(2) Protection to stairs balustrades and treads through out

2) Opening In Hall Wall

The hallway wall on the ground floor had modern timber board cladding. The opening in the middle of the wall was made as it was felt there would not be a significant loss of historic fabric.
