Site

The Oak T1 and Horse Chestnut T2 trees, as marked on the plan, are situated in the rear communal grounds of the property. They are fully publicly visible from Stanhope Gardens N6.

A site visit was not deemed necessary to determine the appropriateness of the proposed works (I am familiar with the location).

The trees are protected by a Tree Preservation Order (TPO)

Proposal

Tree works proposed.

Works to trees protected by a TPO.

T1) Mature Oak tree on rear boundary: Reduce overall crown by up to 2 metres; remove all dead and defective branchwood; all pruning cuts will be made strictly to BS3998 to conserve the long term health of the tree.

T2) Horse Chestnut tree in rear garden: reduce overall crown by up to 3 metres; remove all dead and defective branchwood; all pruning cuts will be made strictly to BS3998.

Issues

I hold no objections to the reasonable proposed pruning works.

The specification is within good arboricultural practice and husbandry.

The works to T2 Horse Chestnut will take the repeat crown reduction back too the most previous recent pruning points.

Recommendation

No Objection
