Site

The Plum tree T1 and Kiwi climber T2, as seen in the photographs and marked on the sketch plan, are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Muswell Hill Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1 - plum tree (8m) - reduce crown to previous pruning points, approximately 2m reduction and remove epicormic shoots from main structural branches.

Issues

I hold no objections to the reasonable proposed pruning works.

The specification is within good arboricultural practice and husbandry.

Recommendation

No Objection
