Site

The mature Ash tree, as seen in the photographs and marked on what3words, is situated in the front entrance of Muswell Hill Primary School. It is publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Alexandra Park Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Five Day Notice.

Issues

I hold no objections to the proposed pruning works.

It is clear from the photograph that there is a large open cavity with good rib wound wood either side.

The tree is situated in a high risk zone.

The land managers intend to reduce further and to create a monolith for conservation purposes.

Recommendation

No Objection
