Site

The trees T4242 Sessile Oak and T4346 Goat Willow, as marked on the tree survey condition plan, are situated in the grounds of the school property. They are not publicly visible.

A site visit was deemed necessary to determine the appropriateness of the proposed works (11/01/2024 at approximately 11:15am).

The location is also within the Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T4243: Sessile Oak (18m): Reduce long limb over neighbouring property by 2-3m

T4346: Goat Willow (9m): Pollard to 4m as tree is leaning over sports pitch. Also indications of basal movement.

Issues

I hold no objections to the reasonable proposed pruning works.

The specification is within good arboricultural practice and husbandry.

Willows generally respond well to such reductions.

Recommendation

No Objection
