|-------------------------|-------------------------------------|--------------------------------------------|
| <b>RECOMMENDATION:</b>  | <b>No Objection (Retrospective)</b> |                                            |
| <b>Application date</b> | 23/01/2024                          |                                            |
| <b>Tree Inspector</b>   | DM                                  | <b>Date:</b> 24 <sup>th</sup> January 2024 |

## **Site**

The Lime *Tilia* spp. tree is situated in the garden and boarder of the property. It is publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The tree is protected by a Tree Preservation Order (TPO)

## **Proposal**

Tree works proposed.

Five Day Notice:

Lime Tree believed to be subject to a Tree Preservation Order (TPO). Due to adverse weather conditions, three main limbs of the tree were affected, with one of them breaking off and causing damage to the house (pictures are attached for reference). Notably, approximately 7-8 months ago, a substantial branch from the same tree broke off, posing a hazard to the public pathway.

## **Issues**

I hold no objection to the proposed pruning works to make the Lime tree safe after the failure from storm Isha.

From the photographs dead cambium and brown rot can be seen from the tight included fork from the past old pollard wound at the break.

## **Recommendation**

**No Objection**
