

Ground floor flat -
13 Linzee Road,
N8 7RG -

Jan. 20th 2024.

ref. no. HG/2023/3382 -

Dear Planning Department or to whom is responsible
for above.

I am writing to you concerning the above
application for planning the proposed installation of a
telecommunications base station/mobile phone tower/mast
and box on the site on Priory Road N8, by the
entrance to Priory Park.

Firstly your website for APPEALS and comments is
appalling making it almost impossible to do so on links!

Secondly - the site is absolutely inappropriate for the
following reasons:

Too near residential area of families with young
children frequenting the park daily. Also nearly if
not, on top of area designated as a wild flora & fauna
area. Also nearly on top of children's playground.

Also - unsightly, and just by tennis courts.

And whether you say so or not - HEALTH
is a priority - or SHOULD be. These masts

have proved to be hazardous to health - let alone
the radiation exuded from them. There are many
schools in the immediate area as well.

Other applications have successfully been rejected
and thrown out in other boroughs in North London -
quite rightly so for all of the above and more reasons.

The opposition here in N8 is huge and we will
continue to oppose in every way possible.

There has been hardly any consultation with our
community, leaving your deadline unacceptably
too short a time. You really must reconsider
for the sake of our residents/real people/children.

→

Local MPs will be receiving appeals
and even publicity in the press if need be.
This is an outrageous application to install
such a monstrosity which should be rejected
hence with !!

Please do not ignore this letter and
push the whole thing 'under the carpet'.

I look forward to your reply in due course.

Yours sincerely,
D. Thompson
