<i>Papaver rhoeas</i>	(Common poppy)	<i>Festuca rubra</i>	(Slender creeping Fescue)
		<i>Poa pratensis</i>	(Smooth stalked meadow)

Bright and beautiful British native wildflowers, formulated to provide maximum food source for bees and butterflies, whilst creating a visually attractive meadow. The mix contains annuals which will continue to germinate and provide the colour and a nectar source to feeding insects.

A percentage of (typically ≤80%) of the mix are grass species which helps to establish and stabilise the substrate

Mix: 18 Wildflower species, 7 Annuals, 6 Grass Species
