Site

The trees are situated in the rear garden of the property. They are not publicly visible.

The tree is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

Due to the minor nature of the proposed works and the level of detail submitted in support of the notification, a site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Issues

I hold no objections to the reasonable proposed pruning works.

A condition survey by R H Consultants dated November 2023 has highlighted various works.

The specification is standard, within good arboricultural practice, and husbandry.

Recommendation

No Objection
