Dear Daniel,

REMINGTON ROAD - Planning Application HGY/2023/3300

PLANNING CONDITION 18 and 19.

I hope this message finds you well.

Thank you for reaching out to us about our ongoing communal landscaping project as part of the development on Remington Road, under the purview of Haringey Council. We are committed to ensuring that this project not only enhances the area but also reflects the wishes and needs of the local community. Formation design and build and Haringey council have actively engaged with residents to co-produce the areas contained within the submitted co-design boards in line with Condition 18.

At the end of last year, Formation and Haringey initiated a series of actions to involve residents in the decision-making process:

1. Newsletters and Leaflets: Formation design and build distributed newsletters to the residents, providing updates about the project. Additionally, leaflets were posted around the site to ensure everyone in the vicinity was informed.

2. Engagement Period: From 24th November to 22nd December, Haringey held a comprehensive engagement campaign. This period was allocated to give residents ample time to submit their views in person and online.

3. Interactive Sessions and Survey: Haringey organised two drop-in sessions which allowed residents to discuss their ideas and concerns directly with the team. An online survey was also conducted to gather further input. Additionally, Formation design and build displayed posters around the site, which were translated into Turkish by Haringey.

4. Consultation Brochure and Survey: Every household surrounding the site received a consultation brochure and a survey, ensuring that every resident had the opportunity to contribute their views and suggestions.

5. Analysis and Iteration: The Haringey Housing Team is currently analysing the results of this extensive engagement. Based on the findings, they will confirm the final iterations of the

landscape work, ensuring that it aligns with the residents' preferences as outlined in the submitted Co-design boards.

6. Ongoing Feedback Review: Formation design and build will continue to collect feedback from residents. All the feedback related to the nearby land is being forwarded to the Haringey Housing Team for thorough review and consideration.

We understand the importance of community involvement in projects that shape their living environment. Therefore, we are not only complying with Condition 18 but are also striving to exceed expectations in community engagement. Our team is dedicated to ensuring that the final landscaping design is a true reflection of the community's desires and enhances the quality of life for all residents in the area.

Please feel free to reach out for further discussion or clarification.

Yours sincerely,

Maria Apostolopoulou
