Site

The Goat Willow tree, as marked on the plan, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Goat Willow - Crown reduce height and spread back to the previous reduction points (approx. 1-1.5m)

Maintenance works in line with good arboricultural practice.

Issues

I hold no objections to the reasonable proposed pruning works.

The specification is within good arboricultural practice and husbandry.

Goat Willows generally respond well to such reductions.

Recommendation

No Objection
