Site

The Horse Chestnut tree T1, as marked on the plan and seen in the photograph is situated in the front garden of the property. It is publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Crouch End Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1: Horse chestnut (18m): Reduce to previous points removing up to 3m of growth to keep tree at a size suitable for its location.

Issues

I hold no objections to the reasonable repeat proposed pruning works.

Re growth from such past reductions often form tight, weak forks and allows the entry of pathogens.

Horse chestnut pollards generally respond well from reductions.

Recommendation

No Objection
