Tree Inspector	DM	Date: 6 th February 2024

Site

The trees T1 Sycamore and T2 Holly, as marked on the plan and seen in the photographs, are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1 - Sycamore – Cyclical Pruning - Re - reduce to previous reduction points by approx 1.5m and remove ivy florets leaving vines and sever ivy at approx window height.

T2 - Holly - Choked with wisteria - Reduce height by approx 5m.

Issues

I hold no objections to the standard reasonable repeat pruning works (T1).

The specification is within good arboricultural practice and husbandry.

The reduction of the holly will bring T2 down to a manageable size.

The holly is close to the structure and oppressive.

Recommendation

No Objection
