Site

The Oak tree is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Fortis Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1 Apple, reduce crown by 1m

T2 Oak, reduce crown back to most recent points, approx. 1m, reduce two lowest limbs a further 2m, due to decay.

All works cyclical maintenance.

Issues

I hold no objections to the proposed pruning works.

The Oak has been heavily reduced before and responded well.

There are several cavities along the length of the trunk.

The reduction will bring the Oak tree into scale with its surroundings.

Recommendation

No Objection
