Site

The various trees as listed above, shown in the photographs, and marked on the map, are situated in the rear and front garden of the property. They are not publicly visible to the rear.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Fortis Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1 - Lime tree-(12m) crown reduction back to most recent pruning points, approximately 2.5m reduction.

T2- Lime tree- crown reduction back to most recent pruning points, approximately 2.5m reduction, reduce height of Ivy by approximately 3m.

T3 and T4- Birch trees-(11m)- crown reduction back to most recent pruning points (up to approximately 3m reduction), prune back branches growing towards house back to previous pruning points.

T5- Red Robin-(4m) cut to ground level.

Issues

I hold no objections to the proposed pruning works.

The reductions to the Limes are standard repeat reasonable works.

The Birch has restored its crown and the applicant has agreed to reduce to up to 2.5m.

The Photinia T5 is low grade and not worthy of a Tree Preservation Order.

Recommendation

No Objection
