Conditions: (4)

- 1** The development to which this permission relates must be begun no later than three years from the date of this decision notice, failing which the permission shall be of no effect.

Reason: This condition is imposed by virtue of Section 91 of the Town and Country Planning Act 1990 and to prevent the accumulation of unimplemented planning permissions.

- 2** The development hereby permitted shall be carried out in complete accordance with the approved plans and drawings listed in this decision notice, other than where those details are altered pursuant to the conditions of this planning permission.

Reason: For the avoidance of doubt and in the interests of proper planning.

- 3** Prior to the commencement of development above ground, full details of the type and location of secure and covered cycle parking facilities have been submitted to and approved in writing by the Local Planning Authority.

The development shall not be occupied until a minimum of 6 cycle parking spaces for users of the development, in accordance with the London Cycling Design Standards. Once agreed, the details shall be implemented as approved and retained/maintained as such thereafter.

Reason: To promote travel by sustainable modes of transport and to comply with the London Plan 2021 minimum cycle parking standards and the London Cycling Design Standards, policy T5 of the London Plan 2021, Policy SP7 of the Haringey Local Plan 2017 and to maximise the accessibility of the development.

- 4** Prior to the commencement of development, a Construction Management Plan (including a Construction Logistics Plan) shall be submitted to and approved in writing by the Local Planning Authority. The document shall include the following matters and the development shall be undertaken in accordance with the details as approved:

- a) The routing of excavation and construction vehicles, including a response to existing or known projected major building works at other sites in the vicinity and local works on the highway;
- b) The estimated peak number and type of vehicles per day and week;
- c) Estimates for the number and type of parking suspensions that will be required; and

d) Details of measures to protect pedestrians and other highway users from construction activities on the highway.

Reason: To provide the framework for understanding and managing construction vehicle activity into and out of a proposed development, encouraging modal shift and reducing overall vehicle numbers. To give the Council an overview of the expected logistics activity during the construction programme. To protect of the amenity of neighbour properties and to main traffic safety

Informatives:
