Site

The *Quercus* spp. Oak tree is situated in the rear garden of the property (see photograph below). It is fully publicly visible from Storey Road and North Hill.

A site visit was deemed necessary to determine the appropriateness of the proposed works (07/02/2024 at approximately 9:45am).

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1 Quercus Robur: reduce regrowth to previous point.

Reason - routine pruning cycle

Issues

I hold no objections to the repeat reasonable proposed pruning works to prune back to the most recent previous.

The specification is within good arboricultural practice and husbandry.

Oaks generally respond well to reductions and this Oak tree has been kept in scale to its surroundings.

This Oak has good vigour and vitality.

Recommendation

No Objection
