

At planning stage scale this drawing using the scale bar only.
At construction stage Contractor not to scale this drawing and all dimensions to be checked by the Contractor before construction proceeds.

This drawing is the copyright of Landmark Architecture Limited and shall not be in any way used or reproduced without their prior written consent.

A 3D perspective view of the interior of the pavilion. The structure is a hexagonal prism with a central skylight labeled "SKY LIGHT". The interior walls are lined with vertical wooden slats. There are several VELUX windows: one on the top wall, one on the side wall, and one on the bottom wall. A large rectangular area on the right side is labeled "DORMER". The floor is covered with a grid of PV panels, labeled "PV PANELS". The overall design is modern and minimalist, with a focus on natural light and ventilation.
