

PROTECTED TREE REPORT (TREE WORKS)

Haringey Council, L4,
Alexandra House, Station
Road N22 7TY

Application number	HGY/2024/0199
Application type	Conservation Area Notification
Site Address:	Lower Flat 101A Hornsey Lane Hornsey London N6 5LW
Proposal	- Reduce 5 self set ash saplings growing against boundary fence to 8 feet in height - Reduce height of fir tree towards road to 15 feet in height - Reduce Laurel bush overhanging road and pavement at front of property.

RECOMMENDATION:	No Objection	
Application date		
Tree Inspector	DM	Date: rd 2024

Site

The trees are situated in the rear garden of the property. They are not publicly visible.

The tree is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

Due to the minor nature of the proposed works and the level of detail submitted in support of the notification, a site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

- Reduce 5 self set ash saplings growing against boundary fence to 8 feet in height
- Reduce height of fir tree towards road to 15 feet in height
- Reduce Laurel bush overhanging road and pavement at front of property

Issues

I hold no objections to the majority of the reasonable proposed pruning works.

However, we have been in dialogue with the applicant and they have agreed rather than reduce the fir by a drastic 15ft, they will reduce by 1-2m from the top.

This will still achieve the same objective of topping the leader, curtailing future growth whilst maintaining the morphology of the tree.

This makes the above specification now within good arboricultural practice and husbandry.

Recommendation

No Objection
