| <b>Application date</b> | 19/02/2024          |                                             |
| <b>Tree Inspector</b>   | DM                  | <b>Date:</b> 21 <sup>st</sup> February 2024 |

## **Site**

The mature Ash *Fraxinus* spp. tree is situated in the rear grounds of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The tree is protected by a Tree Preservation Order (TPO)

## **Proposal**

Tree works proposed.

Five Day Notice to fell an Ash, leaning over shed to rear of Woodland Terrace  
The resident has said it is moving a lot in the wind and on inspection the root plate has lifted.  
There is also severe decay in the tension wood at the base.

## **Issues**

I hold no objections to the proposed removal of the Ash tree under a five day notice.

The Ash has a >45 degree lean. Recent storms have lifted the root bole, this is visible and would form a void, on the tension side, and the tree is reported as moving in the ground.

Decay and dead cambium are also present on the tension side.

The tree has been reduced before to reduce weight in the crown and account for the lean.

## **Recommendation**

### **No Objection**

**Conditions: Re plant 10-12cm girth *Fraxinus oxycarpa* 'Raywood'**
