Site

The various trees, as listed above and marked on the plan, are situated in the rear and front garden of the property. They are not publicly visible to the rear.

A site visit was deemed necessary to determine the appropriateness of the proposed works (19/02/2024 at 11:30am approximately).

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.
