1.0 Introduction

1.1 Project Introduction

Application Site
43 Langdon Park Road

The following document is a Householder Planning Application for the introduction of a rear dormer window and rooflights at 43 Langdon Park Road, London, N6 5PT, to create usable loft space and improved natural lighting to the second floor, bringing light down into the stairwell and bathroom.

This application comprises the following:

- Site, Context, Precedents
- Existing and proposed drawings
- Design and Access Statement.
