1.0 EXECUTIVE SUMMARY

Site Location	10 Fordington Road, London, N6 4TJ		
Proposed Development	It is proposed to demolish the existing garages and shed and erect a residential 3-storey dwelling (plus excavation to form a basement level).		
Historic and Current Activities	Currently use as residential garages. First built on prior to 1935, and mostly residential since then Predominantly residential for the surrounding area		
Environmental Setting	Bedrock geology: London Clay (Unproductive) No Groundwater Source Protection Zones within 250m No surface water within 250m No landfill sites within 250m		
Previous Investigation	A ground investigation was conducted by Land Science in September 2022 which indicated Made Ground up to 0.40m sitting on the London Clay Formation. Groundwater was encountered at varying depths of between 0.70m and 4.85m below ground level during the site works. The groundwater was recorded at a depth of 2.45m during a monitoring visit.		
Conceptual Model	Basement Impact	Potential Adverse Effect	Action Required
	The proposed basement potentially extends beneath the water table.	Interruption to Subterranean (Groundwater) flow	Further action required – Further investigation
	Site geology favours seasonal shrink-swell conditions.	Structural distress of development through ground movement	Further action required – Further investigation
	The proposed basement will potentially increase the differential depth of foundations relative to neighbouring structures.	Structural distress of neighbouring structures through ground movement	Further action required – Further investigation

2.0 INTRODUCTION

2.1 Project Objectives

At the request of Simon & Sheila Fox a Geotechnical Desk Study Report was carried out to establish whether there are any potential risks arising from the local geology, hydrogeology and hydrology at site and the surrounding areas to the proposed development.

The project objectives include the following aims:

- To assess the presence, extent and nature of potential risk of the proposed development.
- To identify further works, if any, needed to further assess, manage or mitigate any potential risks.

2.2 Scope of Works

A preliminary risk assessment comprising a desk study and site survey has been undertaken and is summarised as follows:

1. A review of current activities and conditions at the site based on information from the Client, regulatory data and the results of a site walkover survey.
2. A review of the history of the site and surrounding area from historical maps and available anecdotal information.
3. An assessment of geological, hydrological and hydrogeological information pertaining to the site.
4. Recommendations for further works, if necessary.

The recommendations and comments given in this report are based on the information contained from the sources cited and may include information provided by the Client and other parties including anecdotal information. It must be noted that there may be special conditions prevailing at the site which have not been disclosed by the investigation and which have not been taken into account in the report. No liability can be accepted should such conditions alter the recommendations made in this report.

2.3 Details of Research Undertaken

A number of database searches have been undertaken, soliciting information of the current and historical uses of the site and surrounding area in order to complete a qualitative risk assessment associated with the development of the site. These include:

- Environmental Data Search 1:10000
- Environmental Data Search 1:2500
- Site Sensitivity Maps and Data Sheets
- Historical Maps
- Consultation with the Client / Architect / Site representatives
- Google Search

2.4 Report Limitations

This report is prepared for Simon & Sheila Fox (herein called the 'Client'), for purposes agreed and in accordance with the terms and conditions set out in the Agreement between Site Analytical Services Limited and the Client.

This report refers, within the limitations stated, to the condition of the site at the time of the inspections. No warranty is given as to the possibility of future changes in the condition of the site.

The comments given in this report, and the opinions expressed herein, are based upon the readily available information collated for the report.

This report has been prepared for the sole use of the Client for the purposes described and no extended duty of care to any third party is implied or offered. Third parties using any information contained within this report do so at their own risk.

The accuracy of any map extracts cannot be guaranteed. It is possible that different conditions existed on-site, between and subsequent to the various map surveys appended.

Whilst the report may express an opinion on possible configurations of strata between or beyond exploratory holes discussed or on the possible presence of features based on visual, verbal or published evidence, this is for guidance only and no liability can be accepted for its accuracy.

There may be other sources of information not included in those listed that hold data relevant to the Desk Study undertaken at the site that could materially affect the conclusions made in this report.

This report is prepared and written for the use stated herein; it should not be used for any other purposes without reference to Site Analytical Services Limited. The report has been prepared in relation to the proposed end-use and should another end-use be intended a further re-assessment may be required.

2.5 Confidentiality, Copyright and Reproduction

This document has been prepared by Site Analytical Services Limited in connection with a contract to supply goods and/or services and is submitted only on the basis of strict confidentiality. The contents must not be disclosed to third parties other than in accordance with the terms of the contract.

Site Analytical Services Limited accepts no responsibility whatsoever to third parties to whom this report, or any part thereof, is made known. Any such party relies upon the report at their own risk.

3.0 SITE DETAILS

3.1 Site Location

The site is located on the north-eastern corner of the intersection between Fordington Road and The Drive, which is approximately 100m north-west of Woodside Avenue. The site is situated in London, at approximate postcode N6 4TJ. It is bound by residential properties to the north and to the south-east, with similar properties opposite on the other side of Fordington Road to the south and to the west.

The site is rectangular in shape covers an approximate area of 0.06 Hectares with the general area being under the authority of the London Borough of Haringey.

The site is at National Grid Reference: TQ 277 889

The site location map is presented below in Figure 1:

Figure 1 - Site Location Map

3.2 Current Use of the Site and Surrounding Land Uses

The site is in use as Garages. The surrounding areas are predominantly residential in all directions. Railway Tracks are situated roughly 75m to the south of the site.

An existing site plan is presented below in Figure 2:

Figure 2 - Existing Site Plan

3.3 Site Walkover

Current Use of the Site

The site is currently occupied by disused garages and shed, with garden space to the rear.

Structures or Past Structures

The structures on-site include garages and a shed.

Site Covering (Estimated)

70% Soft Landscaped (lawn area, vegetation beds).
30% Hardstanding (building footprint, pavement, drive)

On-Site Vegetation

There is lawn area in the private garden area, as well as trees located around the exterior borders of the site, as well as a couple within the centre of the lawn area.

Site Topography

The site is generally flat with no apparent sloping.

Potential Contamination Sources

There are no signs of potential contamination sources noted on-site.

Visual or Olfactory Signs of Contamination

There are no visual or olfactory signs of contamination noted on-site.

Drainage/Services or Past Services

There are no drainage features which are visibly evident. Any drainage in the future is likely to be located around the footprint of the concrete footing.

There is not considered to be a significant potential from on-site drainage / services to cause contamination on-site. There are not any obvious preferential pathways resulting from the presence of services that may connect possible contamination on-site with receptors on and / off site.

Water Courses

There were no obvious water courses on-site or adjacent to the site.

From the walkover, the site appears to be a garage in a state of disuse, with a private rear garden, within a mostly residential area.

3.4 Details of Intended Future Uses of the Site

At the time of reporting (February 2024), it is proposed to demolish the existing garages and shed and erect a residential 3-storey dwelling (plus excavation to form a basement level).

A proposed site plan is presented below in Figure 3:

Figure 3 - Proposed Site Plan

3.5 References of Planning Applications

There are recent planning applications for the site registered on the London Borough of Haringey planning portal.

<i>Reference</i>	HGY/2021/1604
<i>Determination Level</i>	Full Council
<i>Planning Portal Reference</i>	9859665
<i>Decision Date</i>	10/11/2021
<i>Decision</i>	Approved with Conditions
<i>Application Type</i>	Full planning permission
<i>Proposal</i>	Demolition of existing garages and shed and erection of dwelling house over three storeys (plus excavation to form a basement level); Erection of rear garden outbuilding; Associated cycle and bin storage; Associated hard and soft landscaping
<i>Address</i>	10, Fordington Road, London, N6 4TJ

4.0 ENVIRONMENTAL SETTING

4.1 Anticipated Geology

The Geological Survey of Great Britain (England and Wales) covering the area indicates the site to be underlain the London Clay Formation at depth.

4.1.1 London Clay Formation

The London Clay mainly comprises bioturbated or poorly laminated, blue-grey or grey-brown, slightly calcareous, silty to very silty clay, clayey silt and sometimes silt, with some layers of sandy clay. It commonly contains thin courses of carbonate concretions ('cementstone nodules') and disseminated pyrite. It also includes a few thin beds of shells and fine sand partings or pockets of sand, which commonly increase towards the base and towards the top of the formation. At the base, and at some other levels, thin beds of black rounded flint gravel occur in places. Glauconite is present in some of the sands and in some clay beds, and white mica occurs at some levels.

4.1.2 Artificial Made Ground

According to the BGS map, Made Ground deposits are not present on-site, however, given the previous development on the site, it is anticipated that localised areas of Made Ground may be present on the site, especially within the vicinity of the former buildings.

4.1.3 Historical Boreholes

The British Geological Survey maintains an archive of historical exploratory borehole logs throughout the UK. SAS Limited has searched the database and have found a borehole located 423m to the north-east of the site at 'Woodside Avenue Fortis Green' and shows 100m of London Clay over 19m of Woolwich Reading Beds over 57m of Upper Chalk over 2m of Middle Chalk to a total depth 178m.

The records of the British Geological Survey indicate the following:

Ground Stability Hazard	Risk Assessment
Collapsible Ground	Very Low
Compressible Ground	No Hazard
Ground Dissolution	No Hazard
Landslide	Very Low
Running Sand	Very Low
Shrinking or Swelling Clay	Moderate
Coal Mining	Not Affected

4.2 Hydrogeology

4.2.1 Groundwater

The Environment Agency Groundwater Protection Policy uses aquifer designations that are consistent with the Water Framework Directive. These designations reflect the importance of aquifers in terms of groundwater as a resource (drinking water supply) and also their role in supporting surface water flows and wetland ecosystems.

The Bedrock geology underlying the site has been classified as Unproductive Strata; rock layers or drift deposits with low permeability that have negligible significance for water supply or river base flow.

Any works or development, which may have an impact on surface water, aquifer or groundwater quality, must be approved by the Environment Agency prior to implementation.

4.2.2 Water Abstractions

There are no Groundwater Source Protection Zones located within 1 kilometre of the site.

There are no water abstraction licences within 1 kilometre of the site.

4.2.3 Hydrology and Drainage

The closest surface water feature is located 402m to the south-east of the site. Due to the distance of the surface water feature from the site, it is not considered to be a risk to the development on site.

The site is currently not located within 1km of an area at risk from extreme flooding from rivers or sea without defences (Zone 2) or an area at risk from rivers or sea without defences (Zone 3).

Modelling of surface water flooding has been undertaken by the Environment Agency and was published on its website in January 2014; an extract from their model is presented on the long-term flood risk government website. Whilst this map identifies three levels of risk (high, medium and low) it is understood that it is based at least in part on depths of flooding. The modelling shows no risk of flooding for the majority of site, however there is high risk of flooding to the north of the site along Fordington Road approximately 100m to the north of the site.

4.3 Sensitive Land Use

There are 4 sensitive land issues within 1 kilometre of the site:

The site is located 296m to the east and 788m to the east of Areas of Ancient Woodland.

The site is located 739m to the east and 788m to the north of Local Nature Reserves.

5.0 INFORMATION ON SITE HISTORY AND LOCAL INDUSTRY

5.1 Present Use and Activities

There are no entries in the contemporary trade directories on-site, there are 3 within 250m of the site, 21 within 500m and 79 within one kilometre of the site.

There are no Control of Major Accident Hazards (COMAH) sites, Explosive sites, Notification of Installations Handling Hazardous Substances (NIHHS), Planning Hazardous Substance Consents or Planning Hazardous Substance Enforcements within 1 kilometre of the site.

There are 7 local authority pollution prevention and controls found within 1 kilometre of the site. The closest is located 407m to the west of the site with the description for 'PG1/14 Petrol filling station' and its status is described as 'Authorisation Revoked', dated 13th January 1999. Due to the distance of the local authority pollution prevention and controls from the site, they are not considered to be a risk.

5.2 Landfill Sites and Waste

There are no BGS recorded landfill sites located within 1 kilometre of the site.

There are no recorded historical landfill sites located within 1 kilometre of the site.

There are no registered radioactive substances within 1 kilometre of the site.

There are no licenced waste management facilities (locations) within 1 kilometre of the site.

There are no licenced waste management facilities (landfill boundaries) located within 1 kilometre of the site.

There are no integrated pollution control registered waste sites within 1 kilometre of the site.

There are no registered waste transfer sites located within 1 kilometre of the site.

5.3 Land Raising or Land Filling

There is potentially infilled land (non-water) located 939m to the north-east and potentially infilled land (water) from 412m to the north.

There are no obvious burial sites within 250m of the site.

5.4 Pollution Incidents and Discharge Consents

There have been 11 pollution incidents to controlled waters within 1 kilometre of the site. The closest is located 695m to the north-west of the site, with the pollutant described as 'Oils - Unknown', incident severity described as 'Category 3 – Minor Incident' and incident dated 25th February 1989. Due to the age of the incident and its distance from the site, it is not considered to be a risk on-site.

There have been 4 discharge consents to controlled waters within 1 kilometre of the site. The closest is located 335m to the south-east of the site and relates to 'Sewage Discharges – Final/Treated Effluent – Not Water Company'. The status of this consent is described as 'Transferred from COPA 1974'. Due to the distances from the site, they are not considered to be a risk on-site.

There are no integrated pollution controls within 1 kilometre of the site.

5.5 Historical Maps

The site history was compiled from information available from a Landmark Envirocheck Report consisting of a series of past Ordnance Survey maps (scale 1:1,250 and 1:2,500 which are presented in Appendix B).

Date	Description of Site Use	Surrounding Site Use
1864	The site is undeveloped and is situated within a field.	The surrounding areas to the site are mostly undeveloped in all directions.
1896	The site remains essentially unchanged.	There has been slight residential development to the south and to the west of the site. Railway Tracks are present approximately 120m to the south of the site.
1913	The site remains essentially unchanged.	There has been more residential development around the site and there are now roads built around the site.
1935	The site has now been developed upon and appears to be occupied by a residential property / garage.	The surrounding areas have become heavily residential in all directions.
1951	The site remains essentially unchanged.	The surrounding area remains essentially unchanged.

1970	The property on-site has been split down the middle into two smaller garages.	The surrounding area remains essentially unchanged.
1991	The site remains essentially unchanged.	The surrounding area remains essentially unchanged.
Current	The site remains essentially unchanged.	The surrounding area remains essentially unchanged.

5.5.1 Historical Summary of Site

Date	Site Development
1864	The site is undeveloped and is situated within a field.
1935	The site has now been developed upon and appears to be occupied by a residential property.
1970	The property on site has been split down the middle into two smaller properties.

From historical map evidence it would appear that the site was undeveloped prior to 1935, after which it appears to have been developed into a residential property. By 1970, the property on-site had been split into two structures, which remains to the current day. Railway Tracks have been present within 250m.

6.0 CONSULTATION WITH THE LOCAL AUTHORITY, THE ENVIRONMENT AGENCY, ETC.

Consultation with the Local Authority was undertaken via the council's online planning portal and archives.

Consultation with the Environment Agency has not been undertaken; however, the Environment Agency have been cited within the information of the Envirocheck report with reference to groundwater, surface water, authorised processes and licenced waste management issues.

There was no additional consultation with other bodies/sources undertaken.

The Canal & River Trust were not consulted regarding navigable rivers and canals and English Nature were not consulted regarding ecological systems; however, their databases have been cited within the information of the Envirocheck report.

7.0 REVIEW AND SUMMARY OF PREVIOUS REPORTS

A ground investigation was conducted by Land Science in September 2022 which indicated Made Ground up to 0.40m sitting on the London Clay Formation. Groundwater was encountered at varying depths of between 0.70m and 4.85m below ground level during the site works. The groundwater was recorded at a depth of 2.45m during a monitoring visit.

8.0 DEVELOPMENT CONCEPTUAL MODEL

The following possible adverse effects have been identified in the conceptual site model below:

Basement Impact	Potential Adverse Effect	Action Required
The proposed basement potentially extends beneath the water table.	Interruption to Subterranean (Groundwater) flow	Further action required – Further investigation
Site geology favours seasonal shrink-swell conditions.	Structural distress of development through ground movement	Further action required – Further investigation
The proposed basement will potentially increase the differential depth of foundations relative to neighbouring structures.	Structural distress of neighbouring structures through ground movement	Further action required – Further investigation

9.0 SUGGESTED NEXT STEPS

9.1 Proposed Further Site Works

The proposal is a Geotechnical Intrusive Site Investigation in order to obtain further information about the site conditions.

Geotechnical Site Investigation

The purpose of the geotechnical investigation will be to obtain data regarding engineering properties of the soils to enable the design of foundations, concrete, pavements and drainage. The works to be undertaken on the site would comprise (a) soil sampling, (b) drilling boreholes at selected locations within the site and to establish foundation design parameters.

Introduction

The Environment Act 1995 has made site sensitivity a key issue, as the legislation pays as much attention to the pathways by which contamination could spread, and to the vulnerable targets of contamination, as it does the potential sources of contamination. For this reason, Landmark's Site Sensitivity maps and Datasheet(s) place great emphasis on statutory data provided by the Environment Agency/Natural Resources Wales and the Scottish Environment Protection Agency; it also incorporates data from Natural England (and the Scottish and Welsh equivalents) and Local Authorities; and highlights hydrogeological features required by environmental and geotechnical consultants. It does not include any information concerning past uses of land. The datasheet is produced by querying the Landmark database to a distance defined by the client from a site boundary provided by the client. In this datasheet the National Grid References (NGRs) are rounded to the nearest 10m in accordance with Landmark's agreements with a number of Data Suppliers.

Water Industry Act Referrals					
Groundwater Vulnerability Map	pg 5	Yes	n/a	n/a	n/a
Groundwater Vulnerability - Soluble Rock Risk			n/a	n/a	n/a
Groundwater Vulnerability - Local Information			n/a	n/a	n/a
Bedrock Aquifer Designations	pg 5	Yes	n/a	n/a	n/a
Superficial Aquifer Designations			n/a	n/a	n/a
Source Protection Zones					
Extreme Flooding from Rivers or Sea without Defences				n/a	n/a
Flooding from Rivers or Sea without Defences				n/a	n/a
Areas Benefiting from Flood Defences				n/a	n/a
Flood Water Storage Areas				n/a	n/a
Flood Defences				n/a	n/a
OS Water Network Lines	pg 5			3	60

Data Type	Page Number	On Site	0 to 250m	251 to 500m	501 to 1000m (*up to 2000m)
Waste					
BGS Recorded Landfill Sites					
Historical Landfill Sites					
Integrated Pollution Control Registered Waste Sites					
Licensed Waste Management Facilities (Landfill Boundaries)					
Licensed Waste Management Facilities (Locations)					
Local Authority Landfill Coverage		1	n/a	n/a	n/a
Local Authority Recorded Landfill Sites					
Potentially Infilled Land (Non-Water)	pg 13				1
Potentially Infilled Land (Water)	pg 13			1	6
Registered Landfill Sites					
Registered Waste Transfer Sites					
Registered Waste Treatment or Disposal Sites					
Hazardous Substances					
Control of Major Accident Hazards Sites (COMAH)					
Explosive Sites					
Notification of Installations Handling Hazardous Substances (NIHHS)					
Planning Hazardous Substance Consents					
Planning Hazardous Substance Enforcements					

Data Type	Page Number	On Site	0 to 250m	251 to 500m	501 to 1000m (*up to 2000m)
Geological					
BGS 1:625,000 Solid Geology	pg 14	Yes	n/a	n/a	n/a
BGS Estimated Soil Chemistry					
BGS Recorded Mineral Sites	pg 14				1
BGS Urban Soil Chemistry	pg 14		Yes	Yes	Yes
BGS Urban Soil Chemistry Averages	pg 17	Yes			
CBSCB Compensation District			n/a	n/a	n/a
Coal Mining Affected Areas			n/a	n/a	n/a
Mining Instability			n/a	n/a	n/a
Man-Made Mining Cavities					
Natural Cavities					
Non Coal Mining Areas of Great Britain				n/a	n/a
Potential for Collapsible Ground Stability Hazards	pg 17	Yes		n/a	n/a
Potential for Compressible Ground Stability Hazards				n/a	n/a
Potential for Ground Dissolution Stability Hazards				n/a	n/a
Potential for Landslide Ground Stability Hazards	pg 17	Yes		n/a	n/a
Potential for Running Sand Ground Stability Hazards	pg 17	Yes		n/a	n/a
Potential for Shrinking or Swelling Clay Ground Stability Hazards	pg 17	Yes		n/a	n/a
Radon Potential - Radon Affected Areas			n/a	n/a	n/a
Radon Potential - Radon Protection Measures			n/a	n/a	n/a
Industrial Land Use					
Contemporary Trade Directory Entries	pg 18		3	21	79
Fuel Station Entries	pg 26			3	2
Points of Interest - Commercial Services	pg 27			5	11
Points of Interest - Education and Health	pg 28				5
Points of Interest - Manufacturing and Production	pg 28			4	19
Points of Interest - Public Infrastructure	pg 30			5	4
Points of Interest - Recreational and Environmental	pg 31			3	2
Gas Pipelines					
Underground Electrical Cables	pg 31			6	5

1	Discharge Consents Operator: London Underground Ltd. Property Type: LAND TRANSPORT + VIA PIPELINES/FREIGHT Location: Highgate Railway Depot, Woodside Avenue, London N6 Authority: Environment Agency, Thames Region Catchment Area: Not Supplied Reference: Ctwc.2296 Permit Version: 2 Effective Date: 9th December 2005 Issued Date: 9th December 2005 Revocation Date: 9th December 2017 Discharge Type: Sewage Discharges - Final/Treated Effluent - Not Water Company Discharge: Land/Soakaway Environment: Receiving Water: Made Ground/London Clay Status: Transferred from COPA 1974 Positional Accuracy: Located by supplier to within 10m	A13SE (SE)	335	2	527990 188670
1	Discharge Consents Operator: London Underground Ltd. Property Type: LAND TRANSPORT + VIA PIPELINES/FREIGHT Location: Highgate Railway Depot, Woodside Avenue, London N6 Authority: Environment Agency, Thames Region Catchment Area: Not Given Reference: CTWC.2296 Permit Version: 1 Effective Date: 21st March 1988 Issued Date: 21st March 1988 Revocation Date: 8th December 2005 Discharge Type: Sewage Discharges - Final/Treated Effluent - Not Water Company Discharge: Onto Land Environment: Receiving Water: Made Ground/London Clay Status: Transferred from COPA 1974 Positional Accuracy: Located by supplier to within 100m	A13SE (SE)	335	2	527990 188670
2	Discharge Consents Operator: Thames Water Utilities Ltd Property Type: WTW/WATER COLLECTION/TREATMENT/SUPPLY Location: Fortis Green Authority: Environment Agency, Thames Region Catchment Area: Not Supplied Reference: Temp.0121 Permit Version: 1 Effective Date: 15th September 1989 Issued Date: 15th September 1989 Revocation Date: 5th October 2000 Discharge Type: Trade Effluent Discharge: Freshwater Stream/River Environment: Receiving Water: River Thames Status: Authorisation revoked Positional Accuracy: Located by supplier to within 100m	A18SE (N)	447	2	527800 189400

Map ID	Details	Quadrant Reference (Compass Direction)	Estimated Distance From Site	Contact	NGR
3	Discharge Consents Operator: Thames Water Utilities Ltd Property Type: WTW/WATER COLLECTION/TREATMENT/SUPPLY Location: Bishops Wood Authority: Environment Agency, Thames Region Catchment Area: Not Supplied Reference: Temp.0030 Permit Version: 1 Effective Date: 15th September 1989 Issued Date: 15th September 1989 Revocation Date: 5th October 2000 Discharge Type: Trade Effluent Discharge: Freshwater Stream/River Environment: Receiving Water: River Thames Status: Authorisation revoked Positional Accuracy: Located by supplier to within 100m	A7NE (SW)	774	2	527300 188300
4	Local Authority Pollution Prevention and Controls Name: Cherry Tree Hill Service Station Location: Cherry Tree Hill, 411 Great North Road, LONDON, N2 0NR Authority: London Borough of Barnet, Environmental Health Department Permit Reference: PPC45 Dated: 13th January 1999 Process Type: Local Authority Pollution Prevention and Control Description: PG1/14 Petrol filling station Status: Authorisation revoked Positional Accuracy: Automatically positioned to the address	A12NE (W)	407	3	527324 189005
5	Local Authority Pollution Prevention and Controls Name: Wellington Service Station Location: 513 Archway Road, LONDON, N6 4HX Authority: London Borough of Haringey, Planning and Environmental Health Permit Reference: PV-02/v1 Dated: 17th April 2001 Process Type: Local Authority Air Pollution Control Description: PG1/14 Petrol filling station Status: Authorised Positional Accuracy: Manually positioned to the address or location	A8NE (S)	426	4	527908 188517
6	Local Authority Pollution Prevention and Controls Name: Tops Dry Cleaners Location: 3 Fortis Green, East Finchley, London, N2 9jr Authority: London Borough of Barnet, Environmental Health Department Permit Reference: PPCDC072 Dated: 18th June 2007 Process Type: Local Authority Pollution Prevention and Control Description: PG6/46 Dry cleaning Status: Authorisation certificate surrendered by operator Positional Accuracy: Manually positioned to the address or location	A17SE (NW)	631	3	527329 189441
7	Local Authority Pollution Prevention and Controls Name: Warwick Wright Finchley Location: Lynton Garage, 90 Fortis Green, LONDON, N2 9EY Authority: London Borough of Haringey, Planning and Environmental Health Permit Reference: 6 Dated: 14th June 1996 Process Type: Local Authority Air Pollution Control Description: PG6/34 Respraying of road vehicles Status: Authorised Positional Accuracy: Manually positioned to the address or location	A18NE (N)	676	4	527806 189630
8	Local Authority Pollution Prevention and Controls Name: Pristine Dry Cleaners Location: Viceroy Parade, 71 High Road, East Finchley, London, N2 8AB Authority: London Borough of Barnet, Environmental Health Department Permit Reference: PPCDC001 Dated: 2nd March 2006 Process Type: Local Authority Pollution Prevention and Control Description: PG6/46 Dry cleaning Status: Permitted Positional Accuracy: Manually positioned to the address or location	A17SE (NW)	696	3	527267 189474
9	Local Authority Pollution Prevention and Controls Name: Sponge N Press Location: 97 High Road, East Finchley, London, N2 8AG Authority: London Borough of Barnet, Environmental Health Department Permit Reference: PPCDC013 Dated: 28th March 2006 Process Type: Local Authority Pollution Prevention and Control Description: PG6/46 Dry cleaning Status: Permitted Positional Accuracy: Manually positioned to the address or location	A17SE (NW)	822	3	527212 189592

Map ID	Details	Quadrant Reference (Compass Direction)	Estimated Distance From Site	Contact	NGR
10	Local Authority Pollution Prevention and Controls Name: Carlton Dry Cleaners Location: 96 Fortis Green Road, London, N10 3hn Authority: London Borough of Haringey, Planning and Environmental Health Permit Reference: DC09 Dated: Not Supplied Process Type: Local Authority Pollution Prevention and Control Description: PG6/46 Dry cleaning Status: Permitted Positional Accuracy: Manually positioned to the address or location	A19SE (NE)	978	4	528504 189575
11	Local Authority Pollution Prevention and Control Enforcements Location: 3 Fortis Green, East Finchley, London, N2 9jr Type: Air Pollution Control Enforcement Notice Reference: PPCDC072 Date Issued: 12th February 2009 Enforcement Date: Not Supplied Details: Not Supplied Positional Accuracy: Manually positioned to the address or location	A17SE (NW)	631	3	527329 189441
12	Local Authority Pollution Prevention and Control Enforcements Location: 97 High Road, East Finchley, London, N2 8ag Type: Air Pollution Control Enforcement Notice Reference: PPCDC013 Date Issued: 4th February 2009 Enforcement Date: Not Supplied Details: Not Supplied Positional Accuracy: Located by supplier to within 10m	A17SE (NW)	821	3	527212 189591
	Nearest Surface Water Feature	A13SE (SE)	402	-	528046 188630
13	Pollution Incidents to Controlled Waters Property Type: Not Given Location: Fortis Green, FINCHLEY Authority: Environment Agency, Thames Region Pollutant: Oils - Unknown Note: Confirmed As A Pollution Incident Incident Date: 25th February 1989 Incident Reference: N1890098 Catchment Area: Not Given Receiving Water: Not Given Cause of Incident: Not Given Incident Severity: Category 3 - Minor Incident Positional Accuracy: Located by supplier to within 100m	A17SE (NW)	695	2	527300 189500
14	Pollution Incidents to Controlled Waters Property Type: Not Given Location: FINCHLEY Authority: Environment Agency, Thames Region Pollutant: Unknown Sewage Note: Confirmed As A Pollution Incident Incident Date: 14th March 1995 Incident Reference: N1950121 Catchment Area: Not Given Receiving Water: Not Given Cause of Incident: Not Given Incident Severity: Category 3 - Minor Incident Positional Accuracy: Located by supplier to within 100m	A12NW (W)	728	2	527000 188950
14	Pollution Incidents to Controlled Waters Property Type: Not Given Location: Vivien Way, EAST FINCHLEY Authority: Environment Agency, Thames Region Pollutant: Storm Sewage Note: Not Supplied Incident Date: 20th July 1998 Incident Reference: THNE1998039708 Catchment Area: Not Given Receiving Water: Not Given Cause of Incident: Not Given Incident Severity: Category 3 - Minor Incident Positional Accuracy: Located by supplier to within 100m	A12NW (W)	730	2	527000 189000

Map ID	Details	Quadrant Reference (Compass Direction)	Estimated Distance From Site	Contact	NGR
15	Pollution Incidents to Controlled Waters Property Type: Not Given Location: Belvedere Co, EAST FINCHLEY Authority: Environment Agency, Thames Region Pollutant: Unknown Sewage Note: Not Supplied Incident Date: 29th May 1996 Incident Reference: N1960278 Catchment Area: Not Given Receiving Water: Not Given Cause of Incident: Not Given Incident Severity: Category 3 - Minor Incident Positional Accuracy: Located by supplier to within 100m	A12SW (W)	730	2	527000 188895
15	Pollution Incidents to Controlled Waters Property Type: Not Given Location: Belvedere Court, FINCHLEY Authority: Environment Agency, Thames Region Pollutant: Unknown Sewage Note: Not Supplied Incident Date: 18th May 1997 Incident Reference: THN11997032177 Catchment Area: Not Given Receiving Water: Not Given Cause of Incident: Not Given Incident Severity: Category 3 - Minor Incident Positional Accuracy: Located by supplier to within 100m	A12SW (W)	735	2	527000 188850
16	Pollution Incidents to Controlled Waters Property Type: Not Given Location: FINCHLEY Authority: Environment Agency, Thames Region Pollutant: Miscellaneous - Unknown Note: Confirmed As A Pollution Incident Incident Date: 31st August 1995 Incident Reference: N1950490 Catchment Area: Not Given Receiving Water: Not Given Cause of Incident: Not Given Incident Severity: Category 3 - Minor Incident Positional Accuracy: Located by supplier to within 100m	A12SW (W)	730	2	527000 188900
16	Pollution Incidents to Controlled Waters Property Type: Not Given Location: FINCHLEY Authority: Environment Agency, Thames Region Pollutant: Oils - Unknown Note: Confirmed As A Pollution Incident Incident Date: 16th May 1990 Incident Reference: N1900240 Catchment Area: Not Given Receiving Water: Not Given Cause of Incident: Not Given Incident Severity: Category 2 - Significant Incident Positional Accuracy: Located by supplier to within 100m	A12SW (W)	780	2	526950 188900
17	Pollution Incidents to Controlled Waters Property Type: Not Given Location: HAMPSTEAD Authority: Environment Agency, Thames Region Pollutant: Oils - Unknown Note: Confirmed As A Pollution Incident Incident Date: 10th August 1990 Incident Reference: N1900464 Catchment Area: Not Given Receiving Water: Not Given Cause of Incident: Not Given Incident Severity: Category 3 - Minor Incident Positional Accuracy: Located by supplier to within 100m	A7NE (SW)	904	2	527100 188300
18	Pollution Incidents to Controlled Waters Property Type: Not Given Location: Highgate View Road Authority: Environment Agency, Thames Region Pollutant: Oils - Unknown Note: Confirmed As A Pollution Incident Incident Date: 19th May 1992 Incident Reference: N1920289 Catchment Area: Not Given Receiving Water: Not Given Cause of Incident: Not Given Incident Severity: Category 3 - Minor Incident Positional Accuracy: Located by supplier to within 100m	A8SE (S)	919	2	527800 188000

Map ID	Details	Quadrant Reference (Compass Direction)	Estimated Distance From Site	Contact	NGR
19	Pollution Incidents to Controlled Waters Property Type: Not Given Location: FINCHLEY Authority: Environment Agency, Thames Region Pollutant: Miscellaneous - Urban Runoff Note: Confirmed As A Pollution Incident Incident Date: 18th April 1995 Incident Reference: N1950195 Catchment Area: Not Given Receiving Water: Not Given Cause of Incident: Not Given Incident Severity: Category 3 - Minor Incident Positional Accuracy: Located by supplier to within 100m	A12SW (W)	929	2	526800 188900
20	Pollution Incidents to Controlled Waters Property Type: Not Given Location: White Lodge Close, HIGHGATE Authority: Environment Agency, Thames Region Pollutant: Unknown Sewage Note: Not Supplied Incident Date: 16th May 1996 Incident Reference: N1960262 Catchment Area: Not Given Receiving Water: Not Given Cause of Incident: Not Given Incident Severity: Category 3 - Minor Incident Positional Accuracy: Located by supplier to within 100m	A7NW (SW)	976	2	527000 188300
	Groundwater Vulnerability Map Combined Classification: Unproductive Aquifer (may have productive aquifer beneath) Combined Vulnerability: Unproductive Combined Aquifer: Unproductive Bedrock Aquifer, No Superficial Aquifer Pollutant Speed: Low Bedrock Flow: Mixed Dilution: 300-550 mm/year Baseflow Index: 40-70% Superficial Patchiness: <90% Superficial Thickness: <3m Superficial Recharge: No Data	A13SW (N)	0	5	527750 188938

Geology 1:50,000 Maps

This report contains geological map extracts taken from the BGS Digital Geological map of Great Britain at 1:50,000 scale and is designed for users carrying out preliminary site assessments who require geological maps for the area around the site. This mapping may be more up to date than previously published paper maps.

The various geological layers - artificial and landslip deposits, superficial geology and solid (bedrock) geology are displayed in separate maps, but superimposed on the final 'Combined Surface Geology' map. All map legends feature on this page. Not all layers have complete nationwide coverage, so availability of data for relevant map sheets is indicated below.

Artificial Ground and Landslip

Artificial ground is a term used by BGS for those areas where the ground surface has been significantly modified by human activity. Information about previously developed ground is especially important, as it is often associated with potentially contaminated material, unpredictable engineering conditions and unstable ground.

Artificial ground includes:

- Made ground - man-made deposits such as embankments and spoil heaps on the natural ground surface.
- Worked ground - areas where the ground has been cut away such as quarries and road cuttings.
- Infilled ground - areas where the ground has been cut away then wholly or partially backfilled.
- Landscaped ground - areas where the surface has been reshaped.
- Disturbed ground - areas of ill-defined shallow or near surface mineral workings where it is impracticable to map made and worked ground separately.

Mass movement (landslip) deposits on BGS geological maps are primarily superficial deposits that have moved down slope under gravity to form landslips. These affect bedrock, other superficial deposits and artificial ground. The dataset also includes foundered strata, where the ground has collapsed due to subsidence.

Superficial Geology

Superficial Deposits are the youngest geological deposits formed during the most recent period of geological time, the Quaternary, which extends back about 1.8 million years from the present.

They rest on older deposits or rocks referred to as Bedrock. This dataset contains Superficial deposits that are of natural origin and 'in place'. Other superficial strata may be held in the Mass Movement dataset where they have been moved, or in the Artificial Ground dataset where they are of man-made origin.

Most of these Superficial deposits are unconsolidated sediments such as gravel, sand, silt and clay, and onshore they form relatively thin, often discontinuous patches or larger spreads.

Bedrock and Faults

Bedrock geology is a term used for the main mass of rocks forming the Earth and are present everywhere, whether exposed at the surface in outcrops or concealed beneath superficial deposits or water.

The bedrock has formed over vast lengths of geological time ranging from ancient and highly altered rocks of the Proterozoic, some 2500 million years ago, or older, up to the relatively young Pliocene, 1.8 million years ago.

The bedrock geology includes many lithologies, often classified into three types based on origin: igneous, metamorphic and sedimentary.

The BGS Faults and Rock Segments dataset includes geological faults (e.g. normal, thrust), and thin beds mapped as lines (e.g. coal seam, gypsum bed). Some of these are linked to other particular 1:50,000 Geology datasets, for example, coal seams are part of the bedrock sequence, most faults and mineral veins primarily affect the bedrock but cut across the strata and post date its deposition.

Published 1864

Source map scale - 1:2,500

The historical maps shown were reproduced from maps predominantly held at the scale adopted for England, Wales and Scotland in the 1840's. In 1854 the 1:2,500 scale was adopted for mapping urban areas and by 1896 it covered the whole of what were considered to be the cultivated parts of Great Britain. The published date given below is often some years later than the surveyed date. Before 1938, all OS maps were based on the Cassini Projection, with independent surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas.

Additional SIMs

Published 1951 - 1990

Source map scale - 1:1,250

The SIM cards (Ordnance Survey's 'Survey of Information on Microfilm') are further, minor editions of mapping which were produced and published in between the main editions as an area was updated. They date from 1947 to 1994, and contain detailed information on buildings, roads and land-use. These maps were produced at both 1:2,500 and 1:1,250 scales.

Ordnance Survey Plan

Published 1952

Source map scale - 1:2,500

The historical maps shown were reproduced from maps predominantly held at the scale adopted for England, Wales and Scotland in the 1840's. In 1854 the 1:2,500 scale was adopted for mapping urban areas and by 1896 it covered the whole of what were considered to be the cultivated parts of Great Britain. The published date given below is often some years later than the surveyed date. Before 1938, all OS maps were based on the Cassini Projection, with independent surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas.

Map Name(s) and Date(s)

Supply of Unpublished Survey Information

Published 1974

Source map scale - 1:1,250

SUSI maps (Supply of Unpublished Survey Information) were produced between 1972 and 1977, mainly for internal use at Ordnance Survey. These were more of a 'work-in-progress' plan as they showed updates of individual areas on a map. These maps were unpublished, and they do not represent a single moment in time. They were produced at both 1:2,500 and 1:1,250 scales.
